

Installation steps of Fuji NXT feeder stroage cart

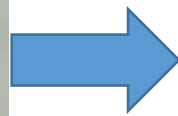

whatsapp/wechat:+86 13602562576

Email: info@smthelp.com

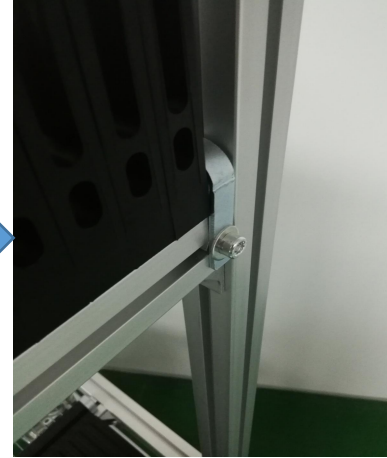

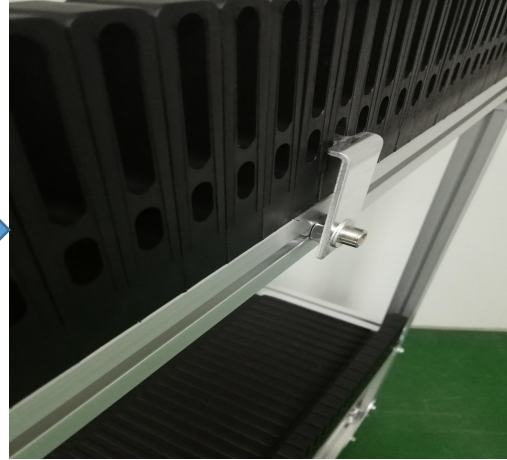

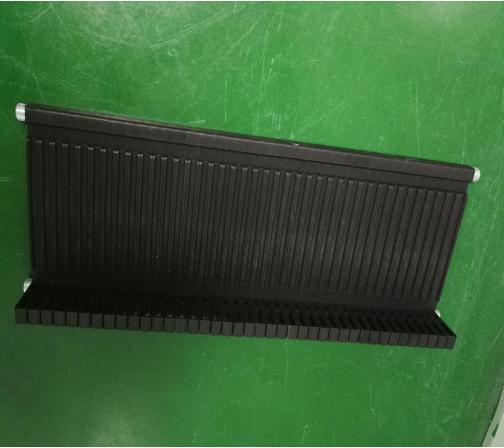

Step 1: we first install a corner wheel, and then use the other three wheels and steel to form a basic rectangular frame.

Step 2: Assemble a piece of steel as shown in the figure below, one by one, from top to bottom, from outside to inside.

Step 3: fix the basket with screws, first install the following, then install the above

Step 4: Select the screw in the figure below and install the remaining basket. Also install the one below, and then install the one above.
