

Solder Paste Mixer S-PM440

automatic solder paste mixer for SMT production
1, this solder paste mixer , mix the solder paste when SMT production before solder paste printer .

Motor speed:	900RPM/min
agitating capacity	0-500 g * 2 cans
Mix time:	Adjustable
Machine dimensions	440×440×520mm
Power Supply:	AC 110/220V±10V, 50/60HZ
work drive motor	governor motor
Mixing capacity:	500g/1000g
Weight (KG)	35KG

FULLY AUTOMATIC SMT LINE:

First, the machine features Features:

1. 0 speed can reach 900 rpm
- 1.1 Solder Paste not need to first thaw stirring;
- 1.2 do not have to open the container;
- 1.3 single-phase power supply 110v-220v:
- 1.4 No problem with water vapor:
- 1.5 does not destroy the shape of solder paste powder:
- 1.6 fixture for all kinds of 500g package Paste cans;
- 1.7 mixing time can be set free;
- 1.8 with manual speed control

10-99 minute ——— 0-9 second
 0-9 minute ——— M M stands for minute
 ——— 10-99 second

2 minute : 02M00 10 minute 09 S : 10M09 11 minute 11 S : 11M11

VS

Hesse steel cup, cheaper processing,
low strength

Aluminum cups, high processing
costs need secondary treatment
costs, durable

Put 500 grams of weight into the empty solder paste cups,
easy to remove, in order to better protect the aluminum mixing cup is not damaged
