

## SCM24 Auto Nozzle Cleaner

SCM-24 using the hydrodynamic water fragmentation, producing very fine water mist, with the speed of sound ( $V = 360\text{m/s}$ ) to form a strong momentum jet to the nozzle, nozzle for cleaning at the top of the formation of a continuous field, crushing the internal surface of the dirt (the nozzle will not be damaged because of its independent device), during the cleaning process the used cleaning water (deionized water or distilled water) automatic direct emissions.

## SCM24 Description

### Cleaning Principle:

With special mechanical design, SCM-24 using the hydrodynamic water fragmentation, producing very fine water mist, with the speed of sound ( $V = 360\text{m/s}$ ) to form a strong momentum jet to the nozzle, nozzle for cleaning at the top of the formation of a continuous field, crushing the internal surface of the dirt (the nozzle will not be damaged because of its independent device), during the cleaning process the used cleaning water (deionized water or distilled water) automatic direct emissions.

### Functions:

1. Thoroughly clean the dirt on nozzles which ultrasonic cleaner can not clean.
2. Strong clean power for nozzles, even the smallest nozzle hole.
3. Very good cleaning effectiveness, extend lifespan of the nozzles.
4. No damage to the coating layer of the nozzle and its reflector panel.
5. Only use DI water or distilled water.
6. Auto clean and dry.
7. Easy operation.
8. Right for all kind of mounter nozzles.

**Cleaning result B**

clean time	nozzle type	before cleaning	after cleaning	remarks
90s	225 nozzle			normal dirt nozzles, when pressure is about 0.5Mpa. 1st time clean about 2 minute;2nd time clean time reduce to 90s
				
				

**SCM24 Description**

ITEM	SME-24 SPEC
Air supply	0.5~0.7Mpa
Power supply	AC220V,1A
Clean liquid	Purified water or DI water
Clean time	3~6min
Dry time	1~3min
Spray pressure	≤0.55Mpa
Clean liquid consumption	≤150cc/Hour
Nozzle range	Min01005~Max
Jig spec	diameter 24holes
Machine size	L665*W555*H475(mm)
Machine weight	30KG
