Southern Machinery was established in Shenzhen China in March 2011. We provide professional automatic insertion machines tailor-made for your Electronic Manufacturing Factory. The Southern Machinery team has over 20 years of experience in the electronics manufacturing industry. We uphold the design philosophy of American auto insertion machines and offer the highest quality of customer service. Depending on your needs, we will conduct any level of EMS design work for you so that you can focus on the manufacturing and sale of your electronic products while we do the set-up work for you.

Professional Group

Financial/ bank statements

CONSOLIDATED STATEMENTS OF OPERATIONS 2020	
Net sales	US\$5,326,380
Cost of sales	US\$3,867,260
Gross margin	US\$1,459,120

Operating expenses	
Research and development	US\$150,000
Selling, general and administrative	US\$250,000
Other expenses	US\$50,000
Income taxes	US\$12,500
Total Expenses	US\$462,500

Balance	
Net income	US\$996,620

- Research and development
- Selling, general and administrative
- Other expenses
- Income taxes

New Practical Patents for THT radial feeder using in SMT machine

A device for cutting the pin of components used in SMT machine

A feeding device for taped through-hole components used in SMT machine

CE Certificates

Certificate Of Compliance

Certificate Number: UNIA2018052401SC-01

Applicant : Shenzhen Southern Machinery Sales and Service Co.,Ltd.
Rm 1806, Block 3, Jinyun COFCO, Qianjin 2 Road, Xixiang, Baoan District, Shenzhen City, China

Manufacturer : Shenzhen Southern Machinery Sales and Service Co.,Ltd.
Rm 1806, Block 3, Jinyun COFCO, Qianjin 2 Road, Xixiang, Baoan District, Shenzhen City, China

Product : PCB Loader

Trade Name : 

M/N : SLD

Test Standard: EN ISO 12100:2010
EN 60204-1:2006+AC:2010

The EUT described above has been tested by us with the listed standards and found in compliance with the council Directive Machinery 2006/42/EC. It is possible to use CE marking to demonstrate the compliance with Directive Machinery.

The certificate applies to the tested sample above mentioned only and shall not imply an assessment of the whole production. It is only valid in connection with the test report number: UNIA2018052401SR-01.

Through Hole Machines

S3000 Radial inserter

- ❖ Consistent throughput, regardless of component type or lead span.
- ❖ Offers a stand alone machine without a pass-through PCB conveyor.
- ❖ Allows the work board holder to accept up to 4 window's.
- ❖ Delivers a PCBA transfer time of zero.

S4000 Axial inserter

- ❖ 22,000 CPH – Spec Speed;13,000 CPH – “Real” Throughput Speed.
- ❖ Expandable from 20 inputs up to 100 inputs.
- ❖ Lowers Cost of Ownership,Low energy cost.
- ❖ Easy operation, use Excel program and USB input.
- ❖ Off-line programming available.

S7000 odd form inserter

- ❖ Most flexible head available on the market.
- ❖ Vision component inspection enables use in Pin in Paste applications.
- ❖ Vision component inspection finds quality problems before insertion.
- ❖ Data driven programming and component database bridges the gap between custom automation and Surface Mount assembly machines.

Board Handling System Serial Machines

Welcome To Visit Our Manufacturing Workshop

Technical Service

Pre-sales service

- ❖ Compatibility between old and new machines.
- ❖ Help customer use Through hole Design Guidelines to create or improve PCB design.
- ❖ Evaluate Process Change Feasibility and Alternatives.
- ❖ Evaluate the Feasibility Adapting IM Equipment to Customer Environment.
- ❖ Provide High cost performance products and short delivery time.
- ❖ We have storehouse of spare parts, so will provide spare parts in time.
- ❖ Provide English in line training and technical support.

After-sales service

- ❖ Our service team is able to provide guidance for AI/PCB design (DFM), introduction of AI process (NPI), and equipment installation as well as training of planting technology (THT), machine troubleshooting / retrofit / overhaul /relocating, also we can provide various AI spare parts of all brands. Our professional engineers/technical teams can provide you excellent 7*24 hours service anywhere and anytime through cloud technology.
- ❖ A complete sales network to provide global customers with quality equipments and service. We provide factory training and local market technical support. To provide whole SMT line and AI line for customer, and help customer to planning factory workshop production process and detailed guide.
- ❖ We could arrange our experienced engineers to customer's factory and help to solve problems that customers can't deal by themselves and Provide professional training.Each customer was highly appreciate our engineer ever.
- ❖ Help customer to visit our Chinese manufacture factory to know whole line production process,showing whole SMT/AI line providing factory technical training and support.
