

# BF200L Vibratory Bowl Feeder

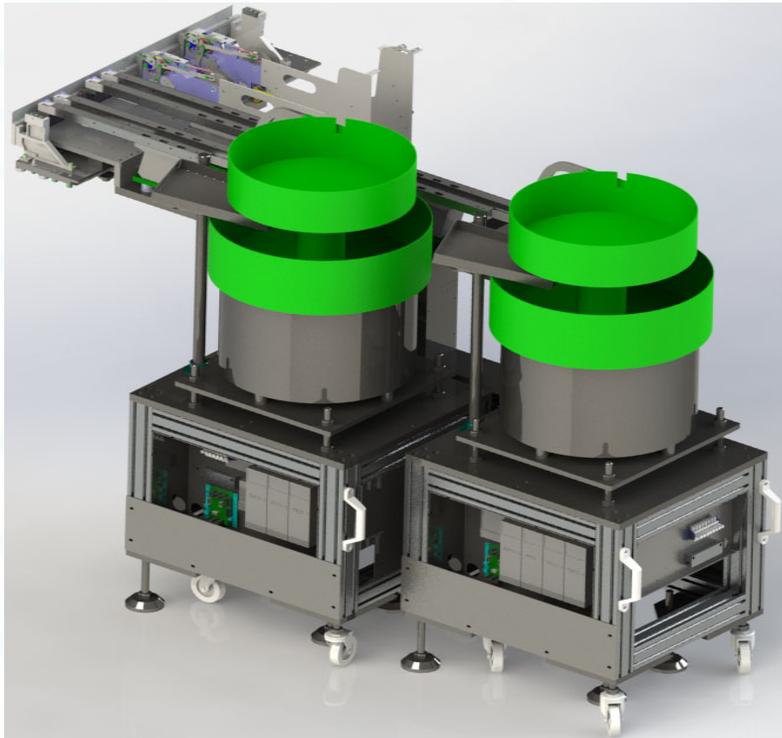

Special applicable for Multi-channel: LED Lens

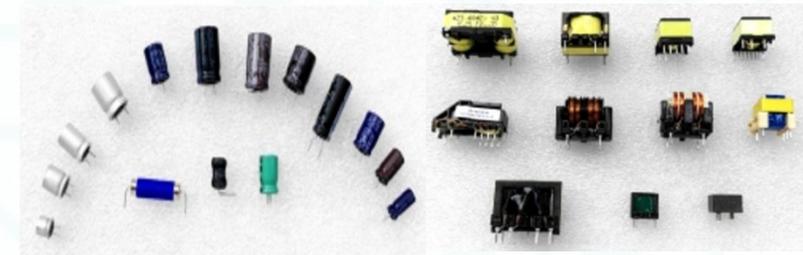

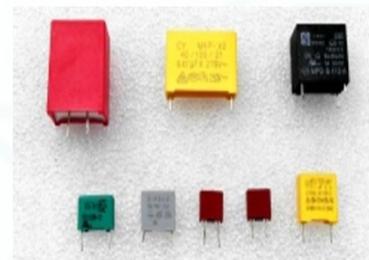

# BF200L Vibratory Bowl Feeder

# BF220L Vibratory Bowl Feeder

- This model is a compact double-layer vibrating plate with four tracks, which can supply four kinds of materials at the same time.
- This feeder is suitable for most bulk special-shaped components, 220 V power supply, with programmable control circuit, stable operation, strong strain capacity.
- Track 1 & 2 is a short track, sharing one direct vibration, short travel and fast discharging.
- Track 3 & 4 is a long gauge with two front and rear direct vibration.
- The vibration source is sufficient and the discharging is fast. High speed steel and aluminum alloy are widely used to ensure the stability, low loss and long life of the fuselage. At the same time, it can match the popular SMT models in the market.
- The total width of the four rails of this model (extending into the machine) is only 231mm.

## Best After-sales service

- **7x24 Worldwide Support**
- **Free Installation/ Training**
- **1 day lead-time (spare parts)**
- **1 Month customize solution**
