FUJI LABEL FEEDER

Reduce cost, improve quality and eliminate hand assembly. insulators, interconnect, shields, antennas . It automatically feeds and peels media from liner and presents for pick-up. Most applications with media size 3x3 to 42x35mm (width x length) can be picked with standard nozzles.

Customer configurations available for < 3mm applications. Platform for up to 58x50mm (width x length) also available.

Simple. Easy to use user interface with push button controls.

User serviceable modular design.

STANDARD NXT HEAD FILTERS.
