

Mini Wave solder pot (titanium)

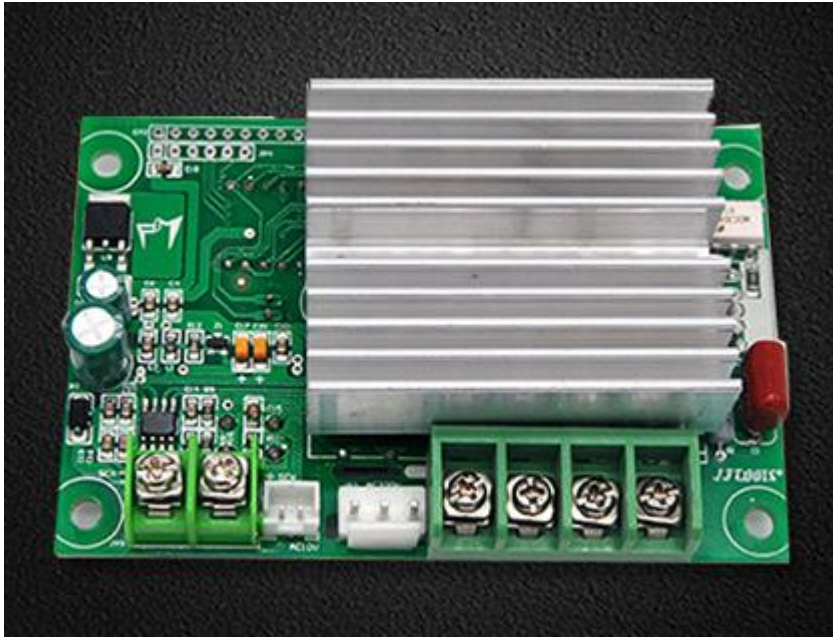

Features:

- * Double digital display, 30-600 degrees can be set freely, intuitive and accurate.
- * The lead-free tin pot is made of titanium and is treated with high temperature anti-corrosion treatment to make it have better temperature and corrosion resistance and long life.
- * The temperature control part adopts only the microcomputer PID chip, with one-button self-tuning and saving function, phase shift trigger control, and stable temperature.
- * High-efficiency energy-saving infrared heating body, can work in the high temperature environment of 400 degrees for a long time, environmental protection, energy saving and consumption reduction.
- * Multi-directional cooling holes, powerful cooling, quiet operation, reasonable design.

Mini Wave solder pot (titanium)

Details of the product

Control part-Microcomputer chip

Tin slag collector

Separate power socket

if the power cord is damaged or the machine fails, it is convenient for maintenance, and if the work requires a longer cord, it is convenient for replacement

Parameters of the product

Item	Model	Rated Power	Temperature Range	Melting Capacity	Melting Time (Minutes)	Dimensions (mm)	Solder Pot Sizes (mm)	Material
1	JF-1070	500W	30-600°C	2.3	15 Approx	220x110x115	100x70x45	titanium
2	JF-1611	1000W	30-600°C	5.7	20 Approx	280x150x115	160x110x45	titanium
3	JF-2010	1000W	30-600°C	6.5	20 Approx	330x140x115	200x100x45	titanium
4	JF-2580	1100W	30-600°C	6.3	20 Approx	380x120x115	250x80x45	titanium
5	JF-2510	1200W	30-600°C	8.2	20 Approx	380x140x115	250x100x45	titanium
6	JF-2516	1800W	30-600°C	13.1	20 Approx	380x200x115	250x160x45	titanium
7	JF-3080	1400W	30-600°C	7.9	20 Approx	430x120x115	300x80x45	titanium
8	JF-3010	1500W	30-600°C	9.8	20 Approx	430x140x115	300x100x45	titanium
