S-205 High Power Consumption Digital Lead Free Soldering Station

S-203 Thermostat Soldering Station

S-205 High Power Consumption Digital Lead Free Soldering Station

Products introduction:

- ※ High frequency current heating, Fast Heating and rapid thermal recovery, realize lead-free soldering
- ※ Microcomputer control, Button type thermal control. Digital temperature calibration, Auto sleeping and shutdown function available, energy-efficiency.
- ※ High Frequency with 150w, use the 8mm tip normally.
- ※ Temperature password locks function effectively to protect the production process.
- ※ Heating element safe design, easy to maintain.

Specifications :

Power supply	AC220V/50HZ
Temperature Range	50°C- 600°C
Max power	150w
Temperature Stability	±2°C
Tip to Ground Resistance	< 2Ω
Tip to Ground Potential	< 2mV
Temperature calibration	Digital temperature calibration
Weight	2.7kg
Dimensions	L200×W130×H100mm
Auto Sleeping	Yes
Temperature- Lock Mode	Password

S-205 High Power Consumption Digital Lead Free Soldering Station

① main engine + ② handle + ③ iron Stan + ④ clean-sponge

S-205 High Power Consumption Digital Lead Free Soldering Station

Details:

High grade LED digital display

Imported silicone line

Metal heating core

Increase the power transformer

S-203 Thermostat Soldering Station

Products introduction:

- ※With sensor front panel design, accurate temperature, rapid thermal recovery.
- ※Auto sleeping and shutdown function available, energy-efficiency.
- ※Temperature locked by password to ensure soldering efficiency.
- ※Digital temperature calibration, easy to operation.

Specifications :

Power supply	AC220V/50HZ
Temperature Range	50°C- 600°C
Max Power	90W
Temperature Stability	±2°C
Tip to Ground Resistance	< 2Ω
Tip to Ground Potential	< 2mV
Temperature compensation Speed	Most Quick
Heating Mode	Intelligent
