

Solder Chip Feeder

- How many **tin pieces** you have to use in one year?
And what is the cost in buying **tin pieces**?
Tin pieces are more expensive than tin, isn't it?

- If you have a **solder chip feeder**,
then you can never worry about how
much tin pieces cost.

Because this machine can **change the tin wire
into tin pieces.**

It can save much for you.

Tin wire

SMT tin slice

SMT production line

Features:

- ❖ Suitable for all kinds of brand Pick & Place machine installed

(such as yamaha, Siemens, panasonic, samsung, Fuji, JUKI, sanyo, universal equipment, according to the different brand and model to configure different positioning seat)
- ❖ Pressing the ordinary tin wire into tin pieces, molding for SMT components, can be arbitrary adjust length of tin wire, have **automatic feed counting function, high efficiency, low noise, small volume, light weight, convenient operation**, etc
- ❖ Can cut material: lead-free solder tin and lead tin (low content of rosin)

Parameters:

| Solder Chip FEEDER | |
|---------------------------|----------------------------|
| Cutting speed (pcs/min) | 100 |
| Repeat Accuracy (mm) | 0.05 |
| Cutting Length (mm) | 1~2mm(Adjustable) |
| Tin Diameter (mm) | 0.6 0.8 2.0 (Optional) |
| Control Way | Touch-tone |
| Power Supply (V/Hz) | AC 220V,50/60Hz |
| Weight (kg) | 3.5kg |
| Dimensions (mm) | L:680MM W:38.5MM H:125.1MM |

Application:

Net card series products:

Tin slice after makeup

For the USB stick

Solder joints formed
after furnace

Tin not pasted
on the contrast

This customer's SMT machine configured Solder Chip Feeder , a significant reduction in cost of tin pieces, has reached the expected requirement.
